I was released from Yanhee in early November but we had to wait until Kathy finished her schooling at Woodstock. We left Yanhee and spent some time in Bangkok as well as on the beach in Penang. The roll of film that I took in Penang was developed in the States but the processing company used a wrong procedure. SUMMARY OF OUR TRIP HOME

I was released from the Yanhee Project when the concrete production phase of the project was basically completed in early November, 1963. Kathy was still at her boarding school in India. We visited Bangkok and Penang, waiting for her school year to end.

Our travel plans to the States was to leave Yanhee with stop overs in Bangkok, Penang, Bangkok, New Delhi (to get Kathy), Cario, Athens, Rome, Madrid, Lisbon, New York City and ending up in Charlotte, NC. This completed our "Around the World" trip that started in Charlotte in late December, 1961

We were on the beach in Penang when President Kennedy was shot on November 22, 1963

We arrived in New Delhi the day before Kathy was schedule to come to New Delhi from her school by train. The next morning we went to the Station. The Station was very large and crowded, but we finally got together. The food situation at the school was very poor and Kathy was extremely hungry. For the next week or so, Kathy consumed much more food than we did. By the time we arrived in Madrid we had made a decision to bypass Lisbon and stay on the plane for New York City.

We spent several days in NY City sightseeing, plus I went to a job interview about a job in Pakistan. I was offered the position but I turned it down. On December 17, 63 we went to the General Motors New York City Office to make the necessary arrangements to get our new Chevrolet car that we purchased in Bangkok. They took us to a Chevrolet Dealer in Hasbrouck Heights, NJ where we received our car.

2/2

While we were in Bangkok we visited a General Motors Chevrolet Dealership and placed an order for a 1964 four door Impala sedan with an automatic transmission, radio, padded panel and a two speed wiper and washer. The cost was \$2,637.38 the color was Satin Silver. We left Hasbrouck Heights and started driving to Charlotte. In Charlotte, we stayed with Jim parents until Kathryn found a place that we could rent until Jim could find a job. We had our trip film developed but the company used the wrong process and we loss all the pictures taken while we were in Penang, Madrid and New York City. In early January I interviewed with Harza Engineering Company in Chicago, IL and accepted a staff position. We moved to Naperville, IL in February, 1964

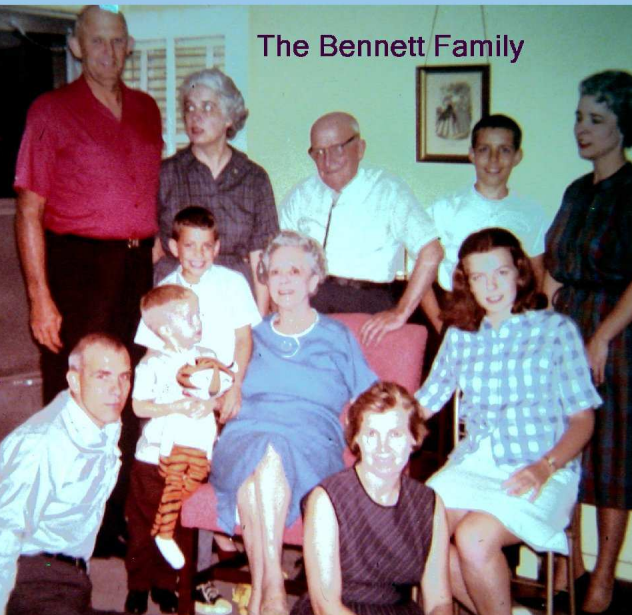

A vintage color photograph of a family of three standing in front of a 1964 Chevrolet. The car is light-colored with a chrome bumper and 'CHEVROLET' lettering on the trunk. The license plate is 'HWD-28' from New Jersey. A woman with red hair, wearing a light blue sweater and dark skirt, stands on the right. Two young boys in dark suits and bowties stand in the center and left. The background is a brick house with a window and a lamp post.

I was unable to find any slides from April, 1994 to February, 1996. The following slides were taken on our tour of Hawaii. I took a lot of photos and a few slides.

When the Talk tour was over we spent a few days in Maui. Jim and his family arrived in Maui on vacation the day that our tour ended. They were staying less than a mile from our hotel. We had a great time together before flying back to Chicago.

I did not mark the location of the slides.

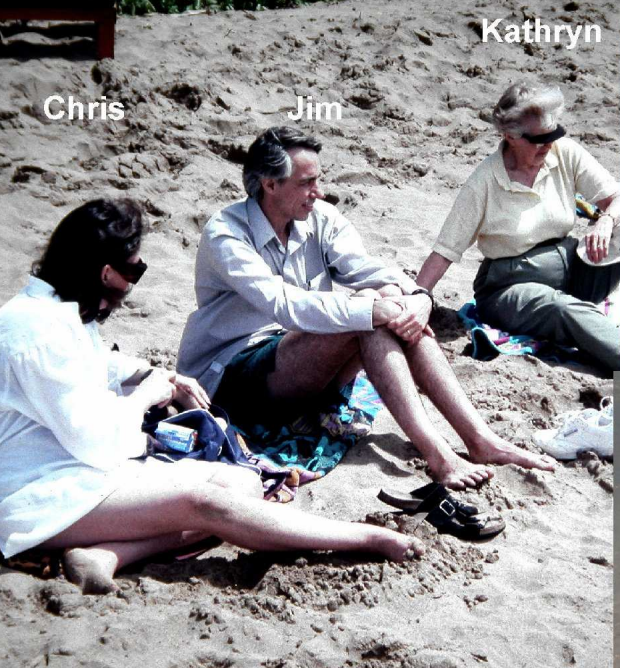

The following slides were taken on the Island of Maui. Jim and his family were also visiting Maui. They were staying about a mile away from our hotel. We had several days together before we left for Chicago.

This is the last of my slides as I obtained a digital camera.

We did take a lot of pictures on our tour of the Islands and on the tour of Australia and New Zealand. We put those pictures in albums.
